with every tank filling

Diesel System Clean & Protect

Application

Add to the diesel tank before filling up. Sufficient for up to 60 L diesel. Product works during operation.

Description

GAT Diesel System Clean & Protect contains a selected combination of active substances for improved engine performance and increased operational reliability. Deposits and residues of carbon oil and soot are properly dissolved and dispersed. Ensures lasting lubrication of the injection pump especially for low-sulphur diesel fuels. For use in all diesel engines. Also suitable for high pressure direct injection diesel engines with common rail technology or pump injectors.

Advantages

Reliably removes operationally caused contamination in the whole fuel system from the tank to the combustion chamber. Avoids formation of deposits in the injection system and at the injection nozzles. Keeps the engine clean, provides for a clean combustion and ensures less fuel consumption helping to protect the environment. Reduced wear and tear of all injection system components due to lubricating additives especially if low-sulphur diesel fuels are used. Protects against corrosion and has a defoaming effect.

Packing sizes	Packing Unit	Article Number
300 ml	24 x 300 ml	Art. 62006
1 L	12 x 1 L	Art. 62158
5 L	-	Art. 62048

other sizes available on request

Properties

Physical state	liquid
Color	light, yellow
Density	0,80 g/cm ³ DIN 12185
Flashpoint	54 ° C ISO 3679
Viscosity	1,27 mm ² /s DIN EN ISO 3140 (@ 40 ° C)

Compatibility

The product is suitable for use in all diesel engines and can be mixed with all diesel fuels.

Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

Disposal

This material and its container must be disposed of as hazardous waste. Handle contaminated packages in the same way as the substance itself. Dispose of waste according to applicable legislation. Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
