

# Technical Data Sheet

## Diesel Winter Care

**Reaction time**  
works during operation

**Consumption**  
10 ml per 10 L

**Application field**  
for use in all diesel engines

**Application interval**  
on demand

### Application

For optimal effect, add the product to the tank regularly before the frosty winter periods – before refueling. Prevents the formation of paraffin crystals when used in a timely manner. Attention: Product for preventable application! If the diesel already has paraffin crystals, the entire vehicle must be warmed up for several hours above freezing. Dosage 1:1000 (150 ml are sufficient for 150 liters of diesel fuel). Product works during operation. Also suitable for stationary diesel engines.

**Advices: Store frost-free! Shake before use! Do not overdose!**

### Description

**GAT Diesel Winter Care** ensures improved flow properties of all diesel fuels and is suitable for use in all diesel aggregates with or without diesel particulate filter. Winter safe down to -28 °C (depending on the fuel quality). Reliably prevents from formation of paraffin crystals at low temperatures.

### Advantages

Optimal flow properties of the diesel fuel ensure optimal operation of all system components and safe driving conditions. Easy application. Provides for a safe operation of diesel aggregates in winter periods. Maintains the flow properties of the fuel. Improves the filterability of the diesel fuel and prevents from blocking of the fuel filter. Ensures improved cold start properties in the winter period.

Packing sizes	Packing Unit	Article Number
150 ml	24 x 150 ml	Art. 62008
1 L	12 x 1 L	Art. 62070
5 L	-	Art. 62071
10 L	-	Art. 62025
IBC	-	Art. 62613

other sizes available on request

### Properties

Physical state	liquid
Color	colourless
Density	0,89 g/cm <sup>3</sup>
Flashpoint	>64 °C

### Compatibility

The product is suitable for use in all diesel engines and can be mixed with all diesel fuels.

### Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

### Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
