

# Technical Data Sheet

**Reaction time**  
approx. 23-30 min.

**Consumption**  
suitable for 1 application

**Application field**  
for use in all air intake systems of  
gasoline engines

**Application interval**  
on demand

## Air Intake Cleaner Petrol

### Application

This Product is exclusively developed for application with the stream machine device and suitable adapters. The adapters have to be installed according to the operating instructions of the device. Start the engine. Let the engine run at 2500 rpm. Spray the product intermittently into air intake system. Then check the valve clearance for functionality.

### Description

**GAT Air Intake Cleaner** for the cleaning of the entire air intake system. Removes deposits in the air intake system, combustion chamber, throttle valves, inlet and outlet valves and valve seats. Especially recommended for insufficient throttle response and compression as well as engine knocking and dieseling.

### Advantages

Only a clean fuel system guarantees clean and powerful combustion and efficient engine performance! Reduces the fuel consumption and improves the exhaust gas emission values. Ensures a smooth idling.

Packing sizes	Packing Unit	Article Number
300 ml	24 x 300 ml	Art. 62022
5 L	-	Art. 62112

other sizes available on request

### Properties

Physical state	liquid
Colour	clear, colourless
Density	0,82 g/cm <sup>3</sup> [DIN 12185]
Flash point	23 °C

### Compatibility

The product is suitable for use in all gasoline engines.

### Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

### Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
