

Technical Data Sheet

Oil Anti Smoke

Reaction time
works during operation

Application field
for use in all diesel and
gasoline engines

Consumption
60 ml for 1 l oil

Application interval
with every oil change
or on demand

Application

Add to the oil system. Compatible with all commercially available mineral and synthetic engine oils. We recommend cleaning of the oil system with Engine Cleaners before application. Sufficient for up to 5 L of engine oil. For larger volumes add 60 ml per liter engine oil. Works during operation.

Attention: Check engine oil level before application!

Description

GAT Anti Smoke is a highly effective additive package for reducing soot and smoke exhaust of gasoline and diesel engines. Ideal for vehicles with high oil consumption. The product ensures optimum lubrication of all moving parts.

Advantages

Counteracts oil thinning and thus reduces excessive oil combustion. Provide a clean and powerful combustion with minimal smoking and soot build-up. The product contributes to reduce fuel consumption by prevention of blow-by effects. Easy to use – no extra effort.

Packing sizes	Packing Unit	Article Number
---------------	--------------	----------------

300 ml	24 x 300 ml	Art. 62116
--------	-------------	------------

other sizes available on request

Properties

Physical state	viscous
Color	colourless – yellow
Density	0,87 g/cm ³
Flash point	> 100 °C
Viscosity	840 mm ² /s (40 °C) [DIN EN ISO 3104]

Compatibility

Mixable with all mineral and synthetic engine oils.

Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
